E-Safety Offer for Burton Borough School

Dear Parent/Guardian

On Safer Internet Day (10th February) we were pleased to launch CyberSentinel software to parents. Telford and Wrekin Council is providing it for you to protect your children.

CyberSentinel is very similar to monitoring software that we use in school that helps us review what children have been doing on the internet that might become a problem.

It usually costs £50 for two years, but you can download and use it **free of charge**

If you would like to obtain the software for free, we will be distributing a unique code and providing a tutorial for how to use the software on **Tuesday 30th June at 5.30pm.** The meeting should last no longer than an hour and will provide you with a chance to see the software in action.

If you would like to attend the tutorial and collect the unique code then please complete the reply slip below and return to school no later than **24th June.**

Peter Brench
Head of ICT
