

Jump on board - Take a ride  
to the healthier side

## School Food is changing

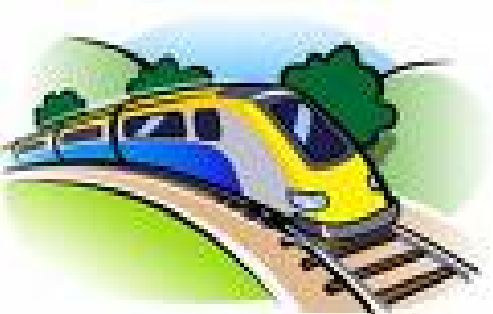

An average school lunch will now have to meet  
14 nutrients

- ✓ To do this we need everyone on board.
- ✓ We need to spread the word and tell everyone what we are doing.
- ✓ We need you to eat school meals and to provide feedback on the taste of new menu dishes.
- ✓ We need you to tell us if we are doing a good job or not!

Jump on board  
Take a ride to the  
healthier side

**The government have introduced  
nutrient based standards for  
school lunches**

**This means an average school lunch will  
have to measure and comply to 14  
nutrients.**

This is law, therefore it is very  
important that we are compliant.

School Meals are changing  
Don't get left behind!
